#### STEDMAN ACCEPTS PLACE ON NATIONAL SOCIALIST TICKET

Chicago Lawyer, Vice-Presidential Choice, Publishes Open Letter to Members of Party.

CHICAGO, August 2.—In his letter accepting the vice-presidential nomination of the Socialist party, Seymour Stedman, of Chicago, makes what is characterized at Socialist national headquarters here as an official statement of the party's position on some of the big issues of the day.

"I accept the nomination you tender me, deeply appreciating the confidence and comradeship with which it comes, and pledge my best efforts to meet the duties and requirements of the task you have set for me," said Stedman's letter.

"Our beloved standard bearer is mute by the judgment of a harsh and unreasonable interpretation of wartime legislation. His imprisonment in a despotism, supported by a Republican congress. Yet this election call will rally together all the intelligent workers of hand and brain, all who love liberty and believe in freedom and humanity.

"The aim of our party is to transform the present capitalist system into a collective and co-operative society. We have always in the past advocated a peaceful, non-violent, high hope is still cherished by us. The masses of our people entered into this conflict with lofty ideals. The humane declarations of the United States in all history, inspired by this crusade for democracy, justice and the best, with full faith, rallied to the support of the allies.

"The armistice came and the victor nations assembled to make a last-

ing peace, a peace without sting. At the very threshold of this conference the curtains were drawn, the people of the world became the pawns and toys of designing, grasping, hating and revengeful men. The faith pledged by the people of this country was broken by their representatives.

"We denounced the proposed league of nations as an organization of international capitalists banded together for the purpose of subjugating and exploiting the peoples of the world.

November 11, 1918, the armistice was signed. War then ended, yet oppressive war legislation remains unrepulsed and the President of the United States recently announced that these laws would continue to be enforced. The espionage act is today in full force and effect, the most cowardly, brutal and inexcusable act ever passed by political representatives of the capitalists.

Large industries go unchecked in grabbing profits; the railroads are handed back to private privilege with a loan and guaranteed dividends; the miners and railroad workers are crushed by injunctions and indictments and tried under war statutes for offenses charged to have been committed within the last few months.

"The ever-increasing cost of living, shortage of coal cars, scarcity of food, high interest rates, increasing unemployment, call for an immediate remedy. We demand the remedy now—socialization of the coal and metalliferous mines now, the four mills and stockyards, now, open unused land to cultivation, now, prepare to substitute for this capitalist oligarchy the social ownership and democratic management of the means of production and the control of government for the producers by the producers.

"Here political issues will not meet the requirements of today's social problems. Economic readjustment must be made and can be made peacefully if we prevail. We enter the

#### JAPANESE WILL ADHERE TO PRESENT OCCUPATION PLAN

Necessity to Be Basis of Reply to American Note Which Is Now Being Drafted.

HONOLULU, August 2.—The Japanese cabinet has decided to adhere to the policy of Viscount Uchida to occupy northern Saghalien and Nikolai, despite the possible protest of other powers, according to a Tokyo dispatch to the Nippon Jiji, Japanese newspaper here.

The Japanese reply to the American

note of protest against the proposed occupation of Saghalien is being drafted, the dispatch added. Japan will explain to Great Britain and France the necessity of the occupation of eastern Siberia, according to the same advice.

(By the Associated Press.)

TOKIO, August 2.—The American note dealing with Japan's occupation of the northern part of the island of Saghalien appears to have made an unpleasant impression generally on the Japanese, but the hope is expressed that the government will be able to convince the United States that the occupation is only of a temporary character.

The newspapers in their comment are adopting, in the main, three lines of opinion. The first, represented by the Kokumin Shinbun, is that America's attitude toward Japan is always in the nature of a challenge. The

second, voiced by the Yomi-Yuri Shinbun, is that the Japanese militarists are to be blamed for what it declares is the misconception abroad about Japan. The third, expressed by the conservative Jiji Shinpo, is that the occupation of Russian territory by Japan constituted a doubtful policy, liable to cause difficulties both at home and abroad. After pointing out that Japan had clearly announced it had no territorial ambitions, the Yomi-Yuri Shinbun continues: "It is regrettable, however, that the de-

clarations of the Japanese government are often not taken seriously. The powers regard Japan as a country which doesn't mean what it says. The most important reason for this will be found in the actions of the militarists, whose utterances are the cause of the government's attitude being misunderstood abroad. Unless the militarist evil is stamped out, the humiliated declarations discovered territorial ambitions will not be able to convince the powers."
